

AP BIOLOGY AGREEMENT FOR JUNIORS

The Cambridge School of Dallas requires every graduate to successfully complete a Physics course at Cambridge (*the only exception is a student who transfers to Cambridge as a senior*). Students who choose to bypass Physics and enroll in AP Biology as a junior will be required to enroll in and successfully complete AP Physics 1 during their senior year. Seniors will not be allowed to take junior-level Physics, and transfer credit will not be granted for Cambridge students who take Physics at another institution during the summer unless approved by the Head of School or Academic Dean.

I understand the guidelines outlined above. I am choosing to enroll in AP Biology as a junior, and will take AP Physics 1 during my senior year.
