Thank you in advance for your service contributions to Cambridge!

Parent Professional Skills Survey

Are you willing to bless Cambridge with your skills and expertise?

Please say YES and complete the brief survey below.

As we plan for the 2020 – 2021 school year, we budget diligently and keep a close eye on our financial resources. We work to enhance the warmth of our campus and be good tenants of Fellowship Bible Church. We know that YOU are one of our most valuable resources!

Do you have areas of expertise, skill sets, or giftedness that you might be willing to share with our school? Are you experienced in bookkeeping, computer skills, photography, real estate, public relations, or any other area?

In the past we've had parents come and bless her school and our students by sharing their computer expertise, photography skills, handyman/carpentry skills and estate shopping abilities. We've even had parents skilled in public relations work with our seniors on interviewing skills as they prepare to interview for colleges, scholarships, and jobs. The amazing thing? Each of those parents has commented on how blessed they personally were to help in their own unique way – much more than they help the school was blessed by their contribution!

The Lord will honor our desire to use all of our resources for His glory. Thank you.
